CHI SIAMO WHO WE ARE

Professionalità ed esperienza sono sinonimo di Romagnoli Porte. Una realtà che opera nel settore del legno da oltre 35 anni e fa della sperimentazione di nuove soluzioni d'arredo la base del proprio percorso evolutivo. L'applicazione d'idee sempre nuove, la continua ricerca di tecnologie all'avanguardia, insieme all'impiego dei migliori materiali, porta l'azienda ad acquisire una posizione di spicco nel settore. Una concezione del design che l'azienda è stata capace di esportare con successo, in tutti i maggiori mercati mondiali. Da sempre, durante tutto il processo produttivo, Romagnoli riserva una continua e particolare attenzione verso l'ambiente, utilizzando i materiali di scarto della lavorazione, per generare energia termica per i propri stabilimenti. Nella stessa prospettiva, ha adattato le linee di verniciatura nuove e già esistenti, per ridurre al minimo i rischi

d'inquinamento sia all'interno che all'esterno dell'azienda. Innovazione in ogni senso, per creare spazi confortevoli da vivere, nel massimo rispetto per l'ambiente esterno.

Dalla bellezza naturale del legno massello e dalle particolari tecniche di lavorazione, nasce lo stile inconfondibile delle porte Romagnoli. Create per fare di ognuna di loro, un pezzo unico ed esclusivo. Ogni realizzazione ha una propria inconfondibile personalità, ma tutte sono l'emblema della ricerca della perfezione e dell'applicazione di concetti innovativi.

Pensate, progettate, create esclusivamente per chi vive nel design. La bellezza estetica dei prodotti Romagnoli si accompagna alla massima attenzione per la qualità, valore indispensabile per proporre sempre il meglio e conquistare la fiducia di un pubblico ambizioso ed esigente. Nel 1998 Romagnoli ottiene la certificazione Iso 9001.

Romagnoli Porte is a synonym of professionalism and experience. A reality that has been operating in the woodwork sector for over 35 years and that has made the experimentation of new furnishing solutions the cornerstone of its pathway towards evolution. The application of new ideas, continuous avant-garde technological research and the use of the best raw materials, have led the company to the acquisition of a position that is now to the forefront within this sector. A conception of design that the company has been able to export successfully, to all major worldwide markets.

Throughout the entire production process Romagnoli has always paid particular attention to the environment, using waste material left over from processing to generate heat energy for its factories. The company has also recently adopted new and already existing varnishing ranges in order to reduce pollution risks to a

minimum both within the company and outside of the same. Innovation in all senses therefore, to create spaces that are comfortable to live in, with the utmost respect for the outer environment.

The unmistakable style of Romagnoli doors is created from the natural beauty of heartwood and thanks to particular working techniques. All the doors created as unique, exclusive pieces.
